

Suicide

Get Set Go

I've been thinking bout drinking draino
A nice big glass to make all my pain go
Somewhere else, Somewhere I can't find it
And I've been thinking about eating bullets
A sweet sweet feel of the trigger as I pull it
Bury a bullet somewhere deep inside

Suicide (4x)

I've been contemplating hanging
A kick of the chair and my feet are dangling
All of my worries disappear tonight
And I've been stumped on the thought of jumping
How high must you climb for a fatal jumping off
All of my worries and woes over the side

Suicide (4x)

There's no more reason to cry

Oh

Suicide (4x)

I've been thinking bout drinking draino
A nice big glass to make all my pain go
Somewhere else, Somewhere I can't find it

Oh

Suicide (4x)
