

# This War Is Silent

Ghinzu

You're blessed by God my love  
Nothing can stop you from your shine

Your skin is glass my love  
I see your blood is liquid light

Well i'm in you, I'm who you are  
I lead an army right inside  
Your teenage eyes

Waiting for you my love  
It's time for us to go to war  
Get up, get dressed my love  
Don't miss your chance to be a star  
A nova star

Why don't you let it fly  
Your glittering gut parts to the dawn  
Like a rainbow, a rocket doll  
Riding the catwalk  
'Til the dawn

You run too fast my love  
I can hear a crack inside your bones  
See all the rats my love  
Come flooding out of your headphones

Well I'm in you, I'm who you are  
I lead an army right inside  
Your secret thoughts

Why don't you let it fly  
Your glittering gut parts to the dawn  
Like a rainbow, a rocket doll  
Riding the catwalk  
'Til the dawn

It's all right!

Don't be afraid my love  
Give it to me your body loud  
It's not too late my love  
Why don't you shout your body loud

Oh Oh it's you, playing with the muss now  
Singing in the snow  
Baby you're never gonna let it go  
Lick off your mirror, breaking apart  
Free all your lions  
Baby you're never gonna let it go
