

## Away and Here

Ghost Brigade

How sick you ever wanna be  
Able to see the light  
Suffer boy leash won't break  
How hard you try

Helplessly tilt the time for me  
Can you help this only for me

Walls around you grow taller  
Hard to keep em  
Heaven beside you bargain with  
Buy yourself your own kingdom

Helplessly tilt the time for me  
Can you help this only for me  
First to find  
It's hard to be

Lightning for  
Lack of regret wakes me
