

## Minus Side

## Ghost Brigade

Taking life for itself  
You call yourself a man  
Declare it as a sin  
Who are you to judge  
Can't stand alone behind your own words

We made you as a coward  
We blame you, you loser  
We name you as a coward  
So you deserve to fly away

We have seen so many fail  
Trying to change people for better  
Evolved to minus side  
And the number is growing

Maybe the end of war  
It could clear us all  
Maybe the end of all  
And another day would be dark

So many gave their lives for serving god  
Stopped so late or stayed in the dark

I believe in this simple world  
I believe in you  
To choose your side the day you born

Unlike the unborn  
That's your only salvation  
Think you're feeling better  
The full circle has done

Maybe the end of war  
It shall deem us all  
Maybe the end of all  
And another day would be gone

So many gave their lives for serving god  
Stopped so late or stayed in the dark

I believe in this simple world  
I believe in the spoken word  
I believe in this simple world  
I believe in you
