

This Heart Of Mine

Ghost Mice

I first saw you at a festival
And then I saw you at a few more shows.
I knew that I had to introduce myself to you.
After all those times of each other
It was something that I had to do.
We hung out in your van.
We became the best of friends.
I can't imagine anything better than that.
I thank you. we first met when you booked us a show.
We played in your backyard to three people.
You made us good vegan food. we became friends with you.
Every time we came to your town we stayed at your house.
I thank you. as the years go by,
This heart of mine says thanks
Many times for the friends it finds.
I am so grateful. I am so lucky.
I am so thankful that you found me.
