

## Dangerous

### Ghost of the Robot

I don't think you know my name  
And I think you'd leave me standin in the rain  
You're a pretty little girl got a thing for me  
But you'd cut me open and let me bleed

But I'll be looking at you with your long brown hair  
Pretty little feet, sparkling everywhere  
You look so good when you come my way  
But I have to look down when you talk to me

'Cause your dangerous,  
Your Dangerous  
Your Dangerous  
And you don't even know it

One Baby, two, maybe three more years  
You'll be a full grown baby, have all your curves  
But here's a little taste of irony  
You'll be a ten hot lady, to good for me

But I'll be looking at you with your long brown hair  
Pretty little feet, sparkling everywhere  
You look so good when you come my way  
But I have to look down when you talk to me

'Cause your dangerous  
Your Dangerous  
Your Dangerous  
And you don't even know it

So little girl, you better stay settled  
You're playin with fire when you get too wet  
So set me down and leave me be  
You find a devil when you unchain me

But I'll be looking at you with your long brown hair  
Pretty little feet, sparkling everywhere  
You look so good when you come my way  
But I have to look down when you talk to me

'Cause your dangerous  
Your Dangerous  
Your Dangerous  
And you don't even know it
