## **Vehicles Shock Me**

## **Ghost of the Robot**

So you caught me all alone
Did you think I'd care at all
Now I'm sitting by the phone
Waiting for you to call
It rang a million times
Before I picked it up
I wear a stupid smile
Saying now I'm stuck
The effervencent beauty of a face so thin
All the stupid questions
Well they did me in

Who was I to think to tell You drove her to uh oh oh Fake plastic trees are dead Have a good time when you fall

It rang a million times
Before I picked it up
I wear a stupid smile
Saying now I'm stuck
The effervencent beauty of a face so thin
All the stupid questions
Well they did me in

Everything
Is upside down
Everything
Is over now

It rang a million times
When you lied to me
It rang a million times
When you lied
It rang a million times

It's your birthday
And I'm not there
Because you don't even
Know that I'm here
Fake trees you
Plant behind you
When it's me there
Right beside you
I'm the shade that
Creeps your shoulder
When you hide your face from me

I Can't get over Can't get under Can't get around or Through to you

I Can't get over

Can't get under Can't get around or Through to you

Everything Is over now
