

# Black Moon

## Ghost Town

I'm feeling all alone lately.  
Tangled in these sheets,  
I'm craving...  
For you to come to me.  
You're the reason I breathe.  
I'm feeling all alone!  
I'm feeling all alone.  
The silence shakes the room.  
In the pale light of you.  
I want the night sky forever.

I want you Black Moon.  
I want you Black Moon.  
I want you Black Moon.  
I want you Black Moon.

You took control of my emotion,  
Like the moon rules the tide.  
Queen Moon, I don't deserve tonight.  
But I'm begging you right now.  
I'll do as you wish.  
Take it high or low.  
I surrender...Don't wanna be alone.  
I'm yours, so do what you please.

Don't wanna be alone.  
Don't wanna be alone.  
Silence shakes the room.  
In the pale light of you.  
I want your night sky forever.

I want you Black Moon.  
I want you Black Moon.  
I want you Black Moon.  
I want you Black Moon.

You always leave me when the sun comes out.  
I'm so low when you're not around.  
The broken me washes out to sea.  
My emotions are trapped in a bottle.  
S.O.S. I'm losing it.  
Without you in my life, I'm dead!  
So bring me back when you seduce the night.

I want you Black Moon.  
I want you Black Moon.  
I want you Black Moon.  
I want you Black Moon. (2x)
