

Evolution

Ghost Town

Something horrible awoke
In us last night
But it feels so right
A blessing in disguise
Something beautiful and free
From this mess in seed
Call it lust that bleeds
Call it you and me

Out with the good and in with the rude
Take all the bad I know what to do
Eat them alive just to survive
We'll never be fine just getting by

Fuck all the bullshit
And all the promises
Were not scared anymore
Were not scared to open our eyes

We're not human anymore
With this evolution
Love is an illusion
Break out of your bedroom walls
Start a revolution
This is evolution

Somethings rising underneath
These empty streets
Slowly digs in deep
Into your memories

And when the world starts to shake
From a million voices
Screaming on repeat
We're screaming

Your truth is bittersweet
There's something terrible
It's hard to see them
Eat us alive just to survive
We'll never be
We'll never be
We'll never be fine

We're not human anymore
With this evolution
Love is an illusion
Break out of your bedroom walls
Start a revolution
This is evolution

We'll never be fine
Just getting by
We'll never be fine
Just getting by

On your knees

Before you crawl
You scream and fall
But no one's listening
Na na na na na na,
Na na na na na na

We're not human anymore
With this evolution
Love is an illusion
Break out of your bedroom walls
Start a revolution
This is evolution
Start a revolution
Start a revolution
Start a revolution
Start a revolution
