

Killin time, killin spaces
on this planet I know I'm outta place
I'm over feeling wasted
I never seem to catch the things I chase
time to make some changes
the cool kids ain't worth our time tonight
I feel like breakin

Think speak believe gotta do what I gotta do to get where I wanna be
and we believe gonna go where we gotta go to find what we are

Are we even human
Why does this room feel like outer space
I've been feeling paranormal
when you and I are standing face to face
when the worlds collide two hearts one mind
close encounters of the very best kind every time
Are we even human why do we feel so out of place

G-H-O-S-T feeling like a I'm feeling like a
G-H-O-S-T feeling like a I'm feeling like a

I feel transparent everybody just looks right through me
I'm done feeling empty searchin for something we can believe
not completely hopeless I can walk through walls and levitate
I think we'll make it

Think speak believe gotta do what I gotta do to get where I wanna be
and we believe gonna go where we gotta go to find what we are

Are we even human
Why does this room feel like outer space
I've been feeling paranormal
when you and I are standing face to face
when the worlds collide two hearts one mind
close encounters of the very best kind every time
Are we even human why do we feel so out of place

G-H-O-S-T G-H-O-S-T G-H-O-S-T G-H-O-S-T
Gonna go where we gotta go to find what we are

Are we even human
Why does this room feel like outer space
I've been feeling paranormal
when you and I are standing face to face
when the worlds collide two hearts one mind
close encounters of the very best kind every time
Are we even human why do we feel so out of place

G-H-O-S-T why do we feel so out of
G-H-O-S-T why do we feel so out of
G-H-O-S-T why do we feel so out of
G-H-O-S-T why do we feel so out of
G-H-O-S-T why do we feel so out of place
