

I'm Wasted

Ghost Town

I should have seen her coming for me,
But love was not the thing that took my life.
She took me to her laboratory,
filled me with her potion till I died.

It all started so right.
Then we put it in flight.
Now we're going the wrong way.
Attention all passengers, this is a massacre, but thank you for choosing this flight.
And all the howling noises reveal,
Just how damn charming this feels.
Just how damn charming this feels.

Love drug, love drug... Overdose
Now I'm wasted.
Your love is no fun... Chemicals With no chaser.

She picked me up after 2 AM,
That night.
If only I'd known her plan,
Her agenda won't take me alive.
She's got another thing that's coming,
I've got a surprise.
If only she known my secret,
She might think twice.

(She's got another thing that's coming,
I've got a surprise.
If only she known my secret,
She might think twice)

Love drug, love drug... Overdose
Now I'm wasted.
Your love is no fun... Chemicals With no chaser.

I fell in love in the afterlife.
The blood in my body drained from your sight.
I've never felt anything so right.
The sound of my skin when i'm marked by your bite.
Your touch...
Your touch ...
Your touch is bringing me back to life
back to life

What kind of drug are you?
No more secrets, whispers, or lies.
I've been dead this whole time.

Love drug, love drug... Overdose
Now I'm wasted.
Your love is no fun... Chemicals With no chaser.
