

## Tentacles

## Ghost Town

Imagine when your lungs are filling up with liquid  
Intoxicated poison flowin' through your veins  
It seems like nothing's changed  
My purple neck is stating all that I'm against but.  
I guess that's how we end up  
When we're underwater

Mayday! mayday! this ships going down  
And as your captain I'm ready to drown...  
I'm gonna drown so deep in you  
I'm gonna drown so deep in you

This necklace that you've got wrapped around my neck  
Will choke me slowly to my death  
And I'm into that

These weights are tied up to my legs  
Sinking lifeless has never felt so peaceful  
These waves are crashing all the same  
Water washing through this sea of people

This necklace that you've got wrapped around my neck  
Will choke me slowly to my death  
And I'm into that  
This necklace that you've got wrapped around my neck  
Will choke me slowly to my death  
And I'm into that

The purple on your neck,  
Stating all that I'm against  
This ship is going down  
This ship is going down

Mayday! Mayday! this ships going down  
And as your captain I'm ready to drown  
It's been a good run,  
But were fucked in this town  
Now I'll close my eyes tight,  
Till we sink to the ground

This necklace that you've got wrapped around my neck  
Will choke me slowly to my death  
And I'm into that
