

## Love Session

Ghostface Killah

Just like a fresh pair of Royals on the first day of school  
It was love, even from the jump I spoiled you  
Before the fame camera cars and the glitter  
Though my occupation is tasty for God's sake it came with the bitches  
But that's on another note (uh-huh) let me explain here  
Right now sugar on how I feel for you  
Like when we ugh yo I get these crazy chills from you  
And when we done, yo I know the perfect meal for you  
The mashed joints, big onions on sauteed fish  
Little Royal, candle and one big kiss  
You my pumpkin and my 'nilla custard, you cussed me out  
When you found condoms laying in my pocket I was busted  
I gets right with you (uh) form a life with you (yeah)  
The type after sex get a warm rag and then wipe you  
Hyped up love light it up, might bite you at the altar  
I'm biting off you, I'm wearing white too

Ain't it funny how tables turn, chase you all around  
Change your life baby, cause I love you baby

Stuck with me through the thick and thin  
Through the pain and strife, the love of my life  
Said that it will ne-ver last  
But I'm here by your side, the love of my life

And I'm here, that's my word  
Only fight you when we makin love, that's what I call it  
Burnin the chronic we laughing while I'm shitting on the toilet  
Camcord it, happy times record it, the time you asked me  
For them blue Nike's, I was like, "Boo I can't afford it"  
I was fucked up, plus I was stuck, Starks the King  
Hit the block and still scraped up, eighty beans  
How you like them apples? My technique is Taye Diggs  
Your attitude is right that's why I made you my Wiz  
The only girl that can make my shit jump, with the slightest touch  
You at the stove while I'm grabbin my stuff  
God forbid something happen to us  
Let's remain and friends and discuss our troubles and might try again  
Word to my Iron pen, it's not good to hold the crying in  
I feel the same way your heart's trapped in the lion's den  
Iron Man, I am him  
It's the beauty in our souls through Allah where the love lies within

Can't believe you found love in me, through everything  
Held me down like my boys in the streets, here's the ring  
What you want to do? What you want to do?

Every part of me, every thing I've done  
Is still there, still there, still care, oh  
Always been there baby  
I don't want to, and I don't want to cry no more baby  
And I love, and I love and I love you girl
