

Over Again

Ghostland Observatory

Well I love you
With a heavy heart
Baby don't you ever start
Losin' Control

And I need to
Stay in pursuit
Baby don't you leave me used
And out on the floor

What you do
With the lights that's true
Baby don't you think it's you
Fallin' apart?

And I have to
Take disciplines
Oh baby don't you be a slave
To someone else's blues

Well make do
With the world we view
Baby don't you stay confused
and out of your mind

And I see through
Thoughts of losin' you
Tell me what you want to do
Just tell me the truth

'It's over, it's over it's over again
It's not the end of your life /end of the line
So don't say good-bye

'It's over, it's over it's over again
It's not the end of your life / end of the line
So don't say good-bye
