

# Bloodshot

## Ghoultown

been drinkin all night my eyes are bloodshot  
been losin my mind my head is sore  
nothin else to do when you've done it all and lived to tell

been drinkin myself a sea of gold  
shot after shot but it never grows old  
join me if you wanna throw your liver right into the fire

chorus:  
bloodshot  
(you can't get the blood so don't even try)  
bloodshot  
(shot)

been diggin in the earth my hands are raw  
I been makin love to another girl  
tryin like hell to find myself an escape

I been playin guitar my fingers hurt  
I've been smokin cigars now my lungs are burned  
nasty habits keep the demons inside me down

been spending my time like dollars in g-strings  
been burnin my bridges just to feel the heat  
cross me once and I'll piss right on your grave

I'm a killer and all my blood runs cold  
from texas down to mexico  
gimme one more drink the sunrise is so far away
