

OK, I made a mistake
And if we kiss here
My word dear
You and your gun

Oh, hell
You fit me so well
And if we leave here
I will be back, dear
You and your gun
You and your gun

Father
You're just like my father
Father
You're just like my father

You and your gun
You and your gun

Father
You're just like my father
Father
You're just like my father
Father
You're just like my father
