

# It's Not the End of the World

Giant

In my wilder days  
I learned a thing or two about love, oh yeah  
You can have all you want  
But you can never get enough, never enough  
And you try to pretend that it doesn't hurt at all  
When you find that it's over and the tears start to fall

It's not the end of the world  
Everybody loses, somebody sometime  
Remember that there's always tomorrow  
Your heart is going to mend  
It's not the end of the world

I know that look on your face  
I've been down before down before  
You didn't even see it coming  
Until you were down on the floor, down on the floor  
But don't let it break you  
Or make you feel small  
Because the bigger the heart  
The harder the fall

It's not the end of the world  
Everybody loses, somebody sometime  
Remember that there's always tomorrow  
Your heart is going to mend  
It's not the end

Sometimes it's hard to understand  
It's just your chance to start again.

Don't let it break you  
Or make you feel small  
Because the bigger the heart  
The harder the fall

It's not the end of the world  
Everybody loses, somebody sometime  
Remember that there's always tomorrow  
Your heart is going to mend  
It's not the end of the world
