

# Never Surrender

Giant

You're gonna bleed  
Break into pieces  
You'll be prayin' to Jesus  
You're gonna bleed  
You're gonna cry  
And you hope you will make it  
Wonder if you can take it  
You're gonna cry  
It'll be worth every price you pay  
Though it's hard to go against the grain  
On that road where all your dreams were made  
Keep the faith, never surrender (never give up)  
Don't give up, never give in  
And the more you give the more you get  
Anything can be yours  
Keep the faith, never surrender...  
You're gonna fly  
Higher and higher  
Keep walking the wire  
You're gonna fly  
You're gonna love

Stronger and deeper  
Anything just to keep her  
You're gonna love  
It'll be worth every price you pay  
Though it's hard to go against the grain  
On that road where all your dreams were made  
Keep the faith, never surrender (never give up)  
Don't give up, never give in  
And the more you give the more you get  
Anything can be yours  
Keep the faith, never surrender...  
Keep the faith, never surrender (never give up)  
Don't give up, never give in  
And the more you give the more you get  
Anything can be yours  
Keep the faith, never surrender (never give up)  
Don't give up, never give in  
And the more you give the more you get  
Anything can be yours  
We will always stand our ground  
Never surrender  
Oh yeah  
(Never surrender... stand our ground... never surrender)
