Over You

Giant

Bad Love – That's all it was I wanted you from the start
And it took one touch – I couldn't get enough
But you fooled around and tore us apart

I was a fool – to believe it I guess – I was dreaming
Listening to all ot your lies Baby now – This you to know
That I'm over you this time were really through
And I'm never coming back I'm letting go

So cool – You broke every Rule Girl you really put on a Show
And now its too late – I just can't wait
I think there's something you ought to know

I've had enough – Of all your lying cause you can
Stop your crying
Baby you don't know what you've done and this Game
You've played is ending
Time to – Stop pretending now you'll be the lonely one

That I'm over you what you put me through
Now I finally see the light – I want you to know
That I'm over you this time were really through
And I'm never coming back I'm letting go

I was a fool To believe it I guess I was dreaming

Listening to all of your lies that I'm over you
What you put me through now I finally see the light – I want
You to know
That I'm over you this time were really through
And I'm never coming back I'm letting go

Baby now – This Game is ending no use – I pretending
Its Time for you to realize

That I'm over you want you put me through
Now I finally see the light – I want you to know
That I'm over you this were really through
And I'm never coming back
I'm letting go
