

Plenty Of Love

Giant

I'm looking at you, and I like what I see
Girl we've been here before, so won't you take a chance on me
She said, "I like 'em tall, dark, and handsome"
"I got you in my sights, cos you're a full grown version
of what I want You better do me right"

Girl, I know just what you're thinking, you're gonna see
There's more to me than meets the eye
Girl you better believe...

I've got plenty of love, and what I've got is more than enough
I've got plenty of love, strong and tough
And i've got plenty of love

I'm gonna keep you guessing, it's just a matter of fact
Maybe I'm what you're missing, there's no turning back
You're looking high and low for your object of desire
Well I'm standing here right in front of you
I'm your man, I ain't no liar

So if you're tired of losing ground, feel like you want to leave
Baby, just turn around, and I'm sure you'll see

I've got plenty of love, and what I've got is more than enough
I've got plenty of love, strong and tough
And i've got plenty of love

Girl, I know just what you're thinking. you're gonna see
There's more to me than meets the eye
Girl you better believe...

I've got plenty of love, and what I've got is more than enough
I've got plenty of love, strong and tough
And i've got plenty of love
