

Kingdom Minded

Gideon

You haven't done what I've done
You haven't seen what I've seen
What will we do with life

What will we do with it
Were only here for a moment
One glance a blink of the eye
One chance it's your only try
What will we do with it
Were only here for a moment.
I don't live twice
Cause I refuse to step back and watch my life go by

Kingdom Minded
I am Kingdom Minded

Living in light of the Kingdom
Living in light of eternity

You haven't done what I've done
You haven't been where I've been
What will we do with life?
This is no game
You only have one life
