

## Silence (Vision 3)

Gigi d'Agostino

Now's the time run to my heart,  
Lead your life into the destiny of love,  
Walking hand in hand and then,  
Hold me tight when  
I look into your eyes  
Hold your life just for my heart  
Hold your life just for the destiny of love,  
I adore to see your smile,  
Hold me tight when I look into your eyes,  
I've been waiting for your love,  
Hold your life just for the destiny of love  
I adore to see your smile,  
Hold me tight when I look into your eyes,  
Stay with me for ever,  
Sharing love together,  
Keep my dream alive,  
Touch with me the sky,  
S'got to be the reason,  
Share with you my freedom,  
Steal a ray of sun,  
A new life has begun,  
Stars are shaded flowers,  
In the shiny night of lovers,  
Lay down by my side,  
I am missing in your eyes  
S'got to be the reason,  
I'll listen to my heart,  
Palpitate with love,  
While i'm here with you,  
You must come along  
Everywhere I go,  
I just want to love you so,  
To fall in love with you,  
It's going to be a game,  
We never play,  
Never ever played  
I just want to say hello  
It takes so long,  
to draw my love,  
From every where I go,  
Every where I go,  
I just want to love you so  
Never ever played...
