

## Better Days Ahead

Gil Scott-Heron

And now it's time  
To gather all the things we need to fly  
To better days ahead

Just wave goodbye  
We've better things to do now, you and I  
In better days ahead

Just take my hand  
You're one I need to understand  
For better days ahead

With you I can stand  
As long as you respect me as your man  
There's better days ahead  
Yes, coming on

Just take my hand  
You're the one I need to understand  
For better days ahead

With you I can stand  
As long as you respect me as your man  
There's better days ahead  
Yes, coming on

Coming on  
Better days ahead  
Coming on  
For you and me
