Can't Find My Way Home

Gilbert O'Sullivan

Nothing You can do or say After the fact Even with experience Which I don't lack I'm like a little lamb That I can't find my way home Read about it talked about it Even asked Wanted it to happen And now it has I'm a little lamb That I can't find my way home Samson and Delilah Even beauty and the beast Have about as much in common As chalk to cheese Yet it didn't seem to matter All that they were really after Is this thing I am in Why in spite of warning voices Which I heed Why instead a suit of Armour L don't need I'm like a little lamb That can't find my way home

I don't understand it
It's impossible to say
I've been out with girls before
But never felt this way
Where do I go for advice
A lamb with wool over his eyes
Sitting here
Full of hear
They say that all in love is fair
I don't agree
Here am I in love and look what
It's done to me
For like a little lamb
That can find my way
