

Don't You Ever Change Your Mind

Gilbert O'Sullivan

Don't you ever change your mind
And hurt me like know you do
Don't you ever leave me behind
When ever all I ever done is love you

When you call I get you number
While do you whistle
You'll never know
Don't you know I get out of slumber
The people there really
Want to know too

I when I pick up my my phone
And dial your number
I wonder how come there is no reply
And every time you look at me
I go so twee way down inside
I wonder why two people should be so
When it's hard to see

Don't you ever change your mind
And hurt me like you know you do
Don't ever leave me behind
When ever all I ever done is love you

And I when I pick up my my phone
And dial your number
I wonder how come there is no reply
And every time you look at me
I go so twee way down inside
I wonder why two people should be so
When it's hard to see
