

I Want to Be Loved

Paul Gilbert

Spark in your eyes and my soul on fire
Your voice is like an angel above
Touch your hand woman you drive me insane
But baby I wants to be loved

Crazy about every little thing you do
I even cherish her
Your kiss is so sweet honey they can't be beat
But baby I wants to be loved

Well, well

Every time I ask you on a date
You don't call me at all
Or you're so late
I asked you to dance a little spin
You said wait a minute daddy
Here, call my friend

I love the way you walk when you pass me by
Even when you try to slow
The touch of your hand women drives me insane
Baby I wants to be loved
