

# Suicide Lover

Paul Gilbert

She was the best girl that I ever kissed  
How was I to know she was a terrorist  
But she didn't mean to hurt me  
Yeah, in fact she looked surprised  
When her love exploded right into my eyes

She's a suicide lover  
You could say her love's the bomb  
Suicide lover  
She's in a crowded street  
And doesn't need a gun  
She won't stop  
'Till she's makin' love to everyone

She was watchin' all the news 'bout Israel  
How the war was making people miserable  
She believed in human karma  
And the problem couldn't wait  
She would use the power of love to conquer hate

She's a suicide lover  
You could say her love's the bomb  
Suicide lover  
She's in a crowded street  
And doesn't need a gun  
She won't stop  
'Till she's makin' love to everyone

I tried to tell her it's not sensible  
But she might as well do it with me  
She might as well do it with me  
She might as well do it with me

She was the best girl that I ever had  
When I think about her I start going mad  
But she didn't mean to hurt me  
And she told me not to wait  
I was not the only serving on her plate

She's a suicide lover  
You could say her love's the bomb  
Suicide lover  
Yeah, I wonder where she's gone  
Suicide lover  
I said come on, come on, come on  
Suicide lover  
She's in a crowded street  
And doesn't need a gun  
She won't stop  
'Till she's makin' love to everyone
