

I love my SVT
Don't need no MTV
I'm gonna play my bass
Vibrate your whole damn face
Melt your ears like icecubes
Crank up my power tubes

Everybody stop and listen to me
I got a whole lotta nothing to say
Except hey, hey, hey, hey
SVT, SVT, SVT, SVT

I love them blue or black
Louder than a Marshall stack
Heavier than I can lift
You'll know when I have riffed
Melt your ears like icecubes
Crank up my power tubes

Everybody stop and listen to me
I got a whole lotta nothing to say
Except hey, hey, hey, hey
SVT, SVT, SVT, SVT
