

Let's Get Lost

Gilby Clarke

Lost in time no time in space Never thought wed ever fade
This ain't the blues This ain't nothin new
Are we fallin off again Someone pushed us from the ledge
No crime no sin We just don't fit in
Lets get lost Lost in Space Just two people a little out of
Place Nothing's wrong Everything's fine Just lost in time
Woke up in a lost and found Don't understand the here and
Now This aint my world Glad you're in my world
Lets get lost Lost in space Just two people a little out of
Place Nothing's wrong Everything's fine Just lost in time
Sorry it don't get better Lets burn all the bridges we cross
Sorry it don't get better Lets burn all the people we know
This ain't the blues This ain't nothing new
Lets get lost This ain't the blues Lets get Lost This ain't
The blues Lets get lost This ain't the blues Lets get lost
Lets get lost Lets get lost Lets get lost Lets get lost Lets
Get lost lets get lost Lets get lost Lets get lost This ain't t
