Lost in time no time in space Never thought wed ever fade This ain't the blues This ain't nothin new Are we fallin off again Someone pushed us from the ledge No crime no sin We just don't fit in Lets get lost Lost in Space Just two people a little out of Place Nothing's wrong Everything's fine Just lost in time Woke up in a lost and found Don't understand the here and Now This aint my world Glad you're in my world Lets get lost Lost in space Just two people a little out of Place Nothing's wrong Everything's fine Just lost in time Sorry it don't get better Lets burn all the bridges we cross Sorry it don't get better Lets burn all the people we know This ain't the blues This ain't nothing new Lets get lost This ain't the blues Lets get Lost This ain't The blues Lets get lost This ain't the blues Lets get lost This ain't t he Blues
