

Don't Change for Me

Gin Blossoms

You know I can't pretend
It's not an accident
I have become somebody else

So much I want to say
You see me everyday
I wish that I could shout it out

You gotta run
This world ain't standing still
Gotta believe
You can make it up that hill

You gotta know
You can have anything
You gotta be
The best that you can be
But don't change for me

Some things I try to hide
You see through my disguise
When you are tearing down the walls

You're gonna figure out
I know without a doubt
These things don't matter much at all

You will be free

But you gotta run
This world ain't standing still
Gotta believe
You can make it up that hill

You gotta know
You can have anything
You gotta be
The best that you can be
But don't change for me

Sorry is not a word
I want to use so easily
I need to know that
Life won't pass you by

You gotta run
This world ain't standing still
Gotta believe
You can make it up that hill

You gotta know
You can have anything
You gotta be
The best that you can be
But don't change for me

This world ain't standing still

Gotta believe
You can make it up that hill

You gotta know
You can have anything
You gotta be
The best that you can be
But don't change for me
But don't change for me

You know I can't pretend
It's not an accident
I have become somebody else
