

# I Don't Want to Lose You Now

Gin Blossoms

I wasn't really leaving  
I was just college gone  
I thought that love could last  
From September to May

Got back just in time  
'Cause you were moving on  
I thought that I could come and go  
And you'd just wait

I don't wanna lose you now  
I promise I'll make it better and I better  
'Cause I've seen a world without you and I bet you  
If there's a way I'll find a way some how  
'Cause I don't wanna lose you now

I know I've got it coming so, baby, just let it out  
'Cause you're worth the price that you're making me pay  
Now I don't wanna wait another minute  
This is my life and I wanna spend it with you  
How about you? what you say?

I don't wanna lose you now  
I promise I'll make it better and I better  
'Cause I've seen a world without you and I bet you  
If there's a way I'll find a way somehow  
'Cause I don't wanna lose you now

I know we're good together  
If everyone knows and everyone can see  
What you do to me

I don't wanna lose you now  
I promise I'll make it better and better  
And better, yes, better

I don't wanna lose you now  
I promise I'll make it better and I better  
'Cause I've seen a world without you and I bet you  
If there's a way I'll find a way somehow  
'Cause I don't wanna lose you now

(I don't wanna lose you now)  
I don't wanna lose you now  
(I don't wanna lose you now)  
I don't wanna lose you now  
(I don't wanna lose you now)  
I don't wanna lose you now  
(I don't wanna lose you now)
