

# Golden Ship

Gin Wigmore

Turn the lights off me  
Take your arms from me  
I don't see any other way  
Close your eyes to me  
Keep my love me when you go  
Don't make this too hard to say

At only sixteen  
Still a beauty queen  
Lord, I'm dying  
Let me leave

Goodbye, goodbye to all of this  
I've got this golden ship  
Who said can save me  
And tomorrow feels like yesterday  
I cannot live this way I'm sorry darling  
And I need no more healing  
For I can't stop the bleeding  
So leave me with this feeling  
And let me have this

One more day with you  
One more hour for you  
I don't see any other way  
Don't you see I'm dying  
Does this explain my crying  
Hope I will not see another day

I'll save a place for you  
Mend your heart  
Even if you go out  
Don't make this too hard to say

At only sixteen  
Still a beauty queen  
Lord, I'm dying  
Let me leave

Goodbye, goodbye to all of this  
I've got this golden ship  
Who said can save me  
And tomorrow feels like yesterday  
I cannot live this way I'm sorry darling  
And I need no more healing  
For I can't stop the bleeding

So leave me with this feeling  
Help me find a way out  
A door to keep the pain out  
As I can't bear to stay now

At only sixteen  
Still a beauty queen  
Lord, I'm dying  
Let me leave

Oh, goodbye, goodbye to all of this  
I've got this golden ship  
Who said can save me  
And tomorrow feels like yesterday  
I cannot live this way I'm sorry darling

Goodbye, goodbye my love  
Goodbye, goodbye my love  
Release your hands from me  
So I can leave  
Lastly I  
Would like to leave with grace  
Today was just too hard  
Too hard for me to stay
