

If Only

Gin Wigmore

[Verse 1:]

Help me, I'm losing
To the ghosts in my head I am fighting
Waiting on answers
I can't win this on my own

[Pre-Chorus:]

Oh, but I bleed
For someone to believe me
And see what I see

[Chorus:]

If only, if only my head would let me free
Then would you take a chance on me
If only your story was who I wanna be
If only you would roll it all on me

[Verse 2:]

Fall into me
I am golden if you let me
Hear me, I'm dying
Just to stand here on my own

[Pre-Chorus:]

Oh, but I bleed
For someone to believe me
And see what I see

[Chorus:]

If only, if only my head would let me free
Then would you take a chance on me
If only your story was who I wanna be
If only you would roll it all on me

[Breakdown:]

You would roll it all on me
You would roll it all on me
You would roll it all on me
You would roll it all

[Chorus:]

If only, if only my head would let me free
Then would you take a chance on me
If only your story was who I wanna be
If only you would roll it all on me
If only you would roll it all on me
If only you would roll it all on me
If only you would roll it all on me
