

Too Late For Lovers

Gin Wigmore

Step on my toes
Riddle my road
Now I can't find my own way back
Leave to me lie with you chasing my eyes
So I fall for you one last time
How do you know if a pocket of gold
Will ever be enough to say I do

No, no, it's too late for lovers
Save me, why won't you save me?
When I gave you my whole world
To leave this holy roller track
If I only knew the day that I lose
Would be up to you
Because you know you said forever
Still I am passing through

Cut me a heart from the milky way stars
To remember when we fell in love
You promised to take me on the carnival ride
But your ring a rosie shot that through
Now nothing you say and nothing you do
Will ever bring me back to you

No, no, it's too late for lovers
Save me, why won't you save me?
When I gave you my whole world
To leave this holy roller track
If I only knew the day that I lose
Would be up to you
Because you know you said forever
Still I am passing through

You knew that the gun was loaded
Still you brought me here
Now I am waiting at heaven's door
Don't you leave me alone
Don't wanna be hear
All I see are angels
I am no angel

No, no, it's too late for lovers
Save me, why won't you save me?
When I gave you my whole world
To leave this holy roller track
If I only knew the day that I lose
Would be up to you
Because you know you said forever
Still I am passing through
Oh, it's too late for lovers
Save me, why won't you save me?
Because you know you said forever
Still I am passing through
