

Higher Than Love

Gina G

Oh, yeah

Got the feeling
Together we've got more than just love
All I need is a kiss from baby
That's not enough

Start believing
Don't question why, oh no
I've got the feeling
I'm feeling so high

Higher than love
Much higher than love
So happy to be your baby
We're higher than love

Higher than love

This situation is better than ever before
Your reputation only is me wanting you more
I can feel it but I don't why, oh no
When we're together
It feels so high

Higher than love
Much higher than love
So happy to be your baby
We're higher than love

Higher than love

I'm in another state of mind
When we're together
And now I'll lose all sense of time
Forever we will fly

Higher than love, oh yeah
Happy to be your baby

Higher than love
Much higher than love
So happy to be your baby
We're higher than love

Higher than love, oh yeah
Much higher than love
So happy to be your baby
We're higher than love

Higher than love
But we're together, alright
But we're together

Be your baby, baby, baby
But we're together
Be your baby, baby, baby
