

Won't That Be Fine

Ginny Owens

I've been feeling a little bit overwhelmed
I've been a little too wrapped up in myself
So many things to cloud my mind
I need to leave them all behind
And think about a place and time beyond this life

Won't that be fine
Oh, when the sun always shines
Nothin' but love all the time
Oh, won't that be fine

I love to get caught up in this daydream
I smile to think about all that I'll see
And any need I've ever had
Any question that I want to ask
Won't even matter gone with the past

Oh, won't that be fine
Oh, when the sun always shines
And there is love all the time
Oh, won't that be fine

And won't that be fine
When everything wrong will be right
And when we will walk in the light
Won't that be fine
