## **Brother To Brother**

**Gino Vannelli** 

Brother to brother Now we must join our hearts and hands Yeah, if we love one another We hold the key to the promised land

Think of all that we've been through The shucks and jives and royal blues Let us pray our time will come When this world will live as one

Brother to brother Now don't let the devil get you down Oh 'cause it's bread and it's butter That makes this whole damn world Go round and round

Do you know where we went wrong Tell me why the lines are drawn? And let us break our boundaries down And live our lives on common ground

Oh mothers and fathers Where will tomorrow's children be? Oh brother, my brother Let us live our lives in peace

Brother to brother Brother to brother
