

# One Night with You

Gino Vannelli

One night with you  
One dream come true  
One love no man can deny  
The good in your eye

One life undone  
One song unsung  
My world of fire and ice  
Become paradise  
Elysium come true in loving you

One angel of man  
Giving me wings to a promised land  
Leaving the world behind

One night with you  
One sky come blue  
One night no rhymes can reveal  
The heaven I feel  
Elysium come true in loving you
