

# Time Out

Gino Vannelli

Running in the human race  
'Round in circles  
No sense of time and space  
Or who we are  
Let me pour some water in your wine  
Let's talk about the future  
We should have better things on our minds anyway

No time for words  
No time for wars  
It's high time we work it out  
No time for fighting  
No time for tears  
Somebody tell me what it's all about  
We could be making the best of the night  
But all we do is scream and shout  
Time out... for love

Lovers on a battlefield  
A house divided  
Eyes that pierce like naked steel  
Through the heart  
Come lay your wounded body down  
And talk about the future  
Throw your weapons to the ground  
Before it's too late

No time for words  
No time for wars  
It's high time we work it out  
No time for fighting  
No time for tears  
Somebody tell me what it's all about  
We could be making the best of the night  
But all we do is scream and shout  
Time out... for love

No time for words  
No time for wars  
It's high time we work it out  
No time for fighting  
No time for tears  
Somebody tell me what it's all about  
We could be making the best of the night  
But all we do is scream and shout  
Time out... for love
