

Frozen

Ginuwine

Who would dare, try to bare, weather so cold
Summer fair, couldn't help, water so froze
He pushed your heart, when he left you all alone
Baby I wish you could remember

You used to be, happy but now love is the enemy
Tired cause you give him all your energy
He left you in the past, but I'm here to bring you back
Cause girl I know that...

Your world was frozen over, he said it's over
He left you broken, but I'm here to show you
I can change you back, this is where it's at
Just leave it up to me, your heart don't have to be
Frozen, frozen...
Frozen, frozen...
Just leave it up to me, girl your heart don't have to be
Frozen, frozen...

The winter air, never felt, quite this cold
How many tears, lead before, you could move on
I'll be your sun, baby I'll keep you so warm
I really wish you could remember

I can save you from yourself
Girl it's obvious that you're in pain
And you're calling out for help
Baby if you just trust me

I'll show you how, I can make it better, girl you brighter now
If you stay with me, I'll make your problems melt away
Anytime you call me baby, I'll be on my way
So you don't have to say

[Chorus]
