

Open the Door

Ginuwine

Something about the way you kiss me
Dang girl your lips are so soft
I can't control it when your with me
And I really want you just to take it off

I can't control myself
I think about it even when I'm by myself
All I want is you open the door

You can be my lover you can be my friend
Just open up girl and let me in
Open the door let me be your baby
I want to be your man
Here I come girl oh let me in
Open the door ay ay ay yeah
Open the door ay ay ay yeah
Open the door ay ay ay yeah open the door

Girl your body is the greatest
I wanna hold on and never let go
Oh can't you feel the anticipation
I wanna lock you inside your door

I can't control myself
I think about it even when I'm by myself
All I want is you open the door

I want you
I think of how it feels when I'm with you
Unlocking your doors to get in
You knock knock let me in
Girl I'm coming in
Open your door open the door for me

[Chorus]
