

She's Like

Ginuwine

From the first time I saw you, you were looking hot
You were strung up in your coup, in your topless drop
I see bags on the passenger side, I see you shop a lot
Girl you look so fly, I need what you got
I know you feel it too, just by your attitude
Ain't try to play no games just wanna get with you

Girl, you need to know that I want you in my world,
And all I know is that she's like,
She's like the spinners on them big themes
She's like the diamonds in my pinky ring
And she's more like the love I have for when I sing,
Girl, you are my everything, my everything

I'm digging your seven jeans and your baby phat
Your telling me you got a man I didn't ask you that
Hurry up hurry up lets go, wont you swing my way
I can tell you really want to roll, would you be my baby
I know you feel it too, just by your attitude
Ain't try to play no games just wanna get with you

So special, don't know what it is
But I know one thing that is for sure,
That since we met its been heaven
And when I saw your face,
Something inside of me told me you'd be the only girl for me
And you soon will be mine

She's like the spinners on them big themes
She's like the diamonds in my pinkie rings
And she's more like the love I got for when I sing,
Girl you are my everything, my everything

She's like the spinners on them big themes
She's like the diamonds in my pinky rings,
And she's more like the love I have for when I sing,
Girl you are my everything, my everything
