

Want U to Be

Ginuwine

(Oh Yeah)

(You know what baby? Ive been meaning to tell you a lot of things ya know wh
at I mean?)

Gotta have you gotta have you gotta have you gotta have you baby
(So much, so me)

Gotta have you gotta have you gotta have you gotta have you baby

Gotta have you gotta have you gotta have you gotta have you baby

(There's just some things you need to know, ya know what I mean? Listen clos
ely)

Girl your beauty it could fill a book

Once glance girl is all it took

It ain't too hard to spot ya

I saw you from a mile a-way

Tell me fellas why she gotta be

The coldest thing that a player see

I gotta do whatever

Try anything it don't matter I gotta let her see

If there's a sign she's diggin' me enough to make love on the first night

Then that's a good look

Can I be honest with you

I, I, I, girl I want you to be

Better than you knew me girl

I need your lovin' for me

Girl I want you to be mine

With the quickness

Skip the bull-sh

Girl your gonna be

Better than ever

When you finally get my love

Inside your b-ody

Ah baby, ah baby, ah baby

Now the word is

Nobody ever gets too close to talk to you for too long

All the gossip about you, it's all bad

Cause the truth is

That you've been needing good lovin' for a year and some months and some day
s and some hours and some seconds

Baby let me take your stress

Like a puff on the best from the West

And if you decide you're diggin' me enough to make love on the first night

Then that's a good look

Can I be honest with you

I, I, I, I want you to be

Yo Yo, if Marvin was here, he'd prolly do a lil' something like this

Y'all listen

I'll give you love and affection

Girl my sex is a blessin'

Lord I said wow

You're marvelous

Let your love come down

Don't be repressed

Yea Baby

Work so good like I knew you would
Yea baby
I'm at a loss for words
Now just pull your body close to mine
My love is gettin' closer to the sun as you go
The only thing that's left is to give you every bit shook up
Can we imagine
Lay inside each other all night
Can I be honest baby, I want you to be

Gotta have you gotta have you gotta have you gotta have you baby
Gotta have you gotta have you gotta have you gotta have you baby
Gotta have you gotta have you gotta have you gotta have you baby
