

## Did I Lose You (feat. Olly Murs)

Giorgia

The table's set for 2 but I'm the only one  
that's how you left me here with a smoking gun  
thought we were solid wood but we are plastic trees  
I swear I hear you laughing cause the joke's on me  
can you lose what you never did have it's hard to hold there in  
your hands

Was my assumption running too fast  
did I lose you, did I lose you,  
letting go is the hardest part  
like holding on to a shooting star  
was my assumption running too fast  
did I lose you, did I lose you,

But I saw your colors in a shining light but it was just a sketch of you in black and white  
what kind of crazy spell did you leave me on it takes some kiss  
and tell and then you were gone

Oh oh oh  
can you lose what you never did have  
it's hard to hold there in your hands was my assumption running too fast  
did I lose you, did I lose you, did I lose you, did I lose you,  
did I lose you, did I lose you, did I lose you, did I lose you

Oh oh oh  
can you lose what you never did have  
it's hard to hold there in your hands  
was my assumption running too fast  
did I lose you...  
did I lose you, did I lose you, did I lose you, can you lose what you never did have  
did I lose you, did I lose you, it's hard to hold to hold there in your hands, did I lose you did I lose you.
