

Adjust

Girl in a Coma

How long until I know you don't care for us?
And you try to adjust

How long until I know you don't care about us?
And you try to adjust

How long till you are shaking?
And you sing oh you say

How long until I know you don't care for us?
Searching through papers as if you where looking for us
And you try to adjust

How long till you are shaking?
And you sing oh you say

Bring it on back against the wall
Till you are falling
