

Baby Doll

Girlicious

I need that spend a stack
Drop it like a cadillac

I know why you're here
You know what I'm here for
You're breaking that bread
Just to save a earful
Wanna lay me down slow
Let's make this clear tho
I'm worth it,
Invest it,
I'll let you nurse it,
Caress it oh

Confess it-You know you wanna see me undress it
No pressure-You good right now but you could do better

'Cause I need it all
Now is that so hard
I'm your baby doll
And I get what I want
'Cause I need it all
The furs and the stones
I'm your baby doll
And that's just what I'm on

I need that spend a stack
Drop it like a cadillac
Things that bling that
Ring on my finger yeah

And what I need ain't gotta be material
That car, that house ain't what makes me pull near to you
But if you buy that car i don't only wanna ride
Keep me running all night
Let me put it in overdrive

Confess it-You know you wanna see me undress it
No pressure-You good right now but you could do better

'Cause I need it all
Now is that so hard
I'm your baby doll
And I get what I want
'Cause I need it all
The furs and the stones
I'm your baby doll
And that's just what I'm on

I need that spend a stack
Drop it like a cadillac
Things that bling that
Ring on my finger yeah

Are you man enough
To give me what I want
To shine it up and jump off, jump off

Looks so good it hurts
But Imma make you work

I'm work every penny
Baby don't you forget it

'Cause I need it all
Now is that so hard
I'm your baby doll
And I get what I want
'Cause I need it all
The furs and the stones
I'm your baby doll
And that's just what I'm on

'Cause I need it all
Now is that so hard
I'm your baby doll
'Cause I need it all
The furs and the stones
I'm your baby doll
And that's just what I'm on

I need that spend a stack
Drop it like a cadillac
