I won't flip, I'm just coming at you
Tryna sing my tune and make your, make your body move
So you can show me what you do.
If you feel this beat, then get your booty shaken puh-lease
And groove it just groove it baby, groove it just groove it
Cuz' I can keep on going boy I know you're gonna like it all night hey

You can't deny the way this beat just gets your body bouncing
Bouncing with some lettuce and a burger with some thousand island dressing
I reckon that you and me should be dancin' together, together
