

## Close to Love

Girls Aloud

Dust Dust Dust Dust

Got so close to love  
I can almost taste the kill  
Barely close enough  
But I could not make the deal  
Got so close to love  
I can almost taste the kill  
Barely close enough  
But I just can't close the deal

I was snow white til I started to drift  
Baby I didn't care, til I saw you there  
And your manner made my animal kick  
But I just didn't dare  
Call me crazy yeah

Everything I ever had to lose  
Is standing in the way of me and you  
Panic built these walls in front of me  
And nothing but my headcan set me free

Man get up  
We're gonna start this fire  
Tangled up  
Because I know I should  
Can't get up  
Watch the flames go higher  
Tangled up  
We're gonna need more wood

Got so close to love  
I can almost taste the kill  
Barely close enough  
But I could not make the deal  
Got so close to love  
I can almost taste the kill  
Barely close enough  
But I just can't close the deal

Dust Dust Dust Dust

I'll confess I'm in a real big mess  
With the guy I love but I can't say yes  
Now my only bet is take a plane ride west  
'Cos I can't regret what I ain't done yet

Man get up  
We're gonna start this fire  
Tangled up  
Because I know I should  
Can't get up  
Watch the flames go higher  
Tangled up  
We're gonna need more wood

Got so close to love

I can almost taste the kill  
Barely close enough  
But I could not make the deal  
Got so close to love  
I can almost taste the kill  
Barely close enough  
But I just can't close the deal

Man with the chemical stare, hands off  
Guy with the terrible hair, back off  
Dude with the look in your eye, leave it  
Man with the beautiful ride, beat it
