

## Intro

## Girls Aloud

It's all about the hairline and it's all about the game  
Don't ask me to say my name  
Don't ask me to share my fame  
it's all about the flashlights, it's all about the flames

You took the bait and now you looking like a fool  
Don't ask how we do it so cool  
Don't ask us to break the rules  
it's all about the bassline, it's all about the clues

It's all about the hairline and it's all about the game  
Don't ask me to say my name  
Don't ask me to share my fame  
It's all about the flashlights, it's all about the flames

You took the bait and now you looking like a fool
